DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on January 17, 2008, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claims 3, 11, 18, 25, 30, and 38. The claim rejection under 35 U.S.C. § 112, 2nd paragraph for claims 23-35 have been overcome by the amendment and has hereby been withdrawn for consideration.

Response to Arguments

2. Applicant's arguments, see Remarks/Amendments, filed January 17, 2008, with respect to claims 25-35 have been fully considered and are persuasive. The rejection of claims 23-35 under 35 USC 112, 2nd paragraph as being indefinite has been withdrawn in view of applicant's amendment, which adequately defines linking group Y in the instantly claimed formula.

Election/Restrictions

3. Claims 23-24, 26-29 and 31-35 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 1-2, 4-10, 12-17, 19-22, 36-37, and 39-43, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 11/09/2006 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

4. Claims 1-2, 4-10, 12-17, 19-24, 26-29, and 31-37 and 39-43 are allowed.

5. The following is an examiner's statement of reasons for allowance: The prior art, alone or in combination, fails to teach and/or fairly suggest a charge transport composition comprising molecules having the formula as instantly defined in immediate 23. Nor does the prior art teach preparing a charge transport composition by reacting a multi-functional compound with a di-reactive ring compound having a formula as defined and found in immediate claim 28. Thus, an organo-photoreceptor comprising a polymeric charge transport composition as defined above and in instant claim 36 and a charge generating compound coated onto an electrically conductive substrate is not found in the prior art. Additionally, an organo-photoreceptor comprising the above-defined charge transport composition, as well as found in instant claim 1, combined with a charge generating compound coated onto an electrically coated substrate is not found in the prior art. The electrophotographic apparatus comprising (a) a light imaging component and (b) a organo-photoreceptor oriented to receive light comprising an electrically conductive substrate and a photoconductive element, wherein the photoconductive element comprises the above defined charge transport composition comprising the above defined formula (see claim 9 and 23) and a charge generating compound is not found in the prior art. Additionally the electrophotographic imaging process as seen in instant claim 16 comprising the above electrically conductive substrate and the above defined photoconductive element (see claim 16) is not found in the prior art.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanza L. McClendon whose telephone number is (571) 272-1074. The examiner can normally be reached on Monday through Friday 7:30-4:00.
